About Me

Software Developer with a Master of Computer Applications (MCA) and a strong foundation in JavaScript, Java, and Python. Proven track record of building complex, full-stack applications and real-time multiplayer systems using modern frameworks like React.js and Node.js. Passionate about creating seamless user experiences through professional UI/UX design in Figma and high-performance GSAP animations.

Technical Skills

- **Programming Languages:** JavaScript, Java, Python, C/C++
 - **Frontend:** React.js, Tailwind CSS, HTML, CSS, Figma
 - **Backend & APIs:** Node.js, Express.js, REST APIs, JWT
 - **Real-Time & Networking:** Socket.io, WebRTC
 - **Databases:** MongoDB, SQL
 - **Tools & Platforms:** VS Code, Git, GitHub, Jupyter Notebook, Vercel, Render
-

Projects

1. Online Multiplayer Chess Game

- Created a real-time multiplayer chess game using React Chessboard for the frontend and Socket.io for live gameplay.
- Implemented matchmaking, move synchronization, and player state management without a database.
- Deployed the frontend on Vercel and the backend on Render for smooth user access.
- Tech Stack: React.js, Socket.io, Node.js, Express.

2. Airbnb Clone

- Rebuilt core Airbnb functionalities including property listing, filtering, booking, and user authentication.
- Developed a responsive and modular frontend using React.js and Tailwind CSS with reusable components.
- Integrated APIs and optimized the UI with skeleton loaders and proper image handling.
- Tech Stack: React.js, Tailwind CSS, Node.js, Express.js

3. Meow Match – Online Rock Paper Scissor Game

- Built an online multiplayer Rock-Paper-Scissors game with animated cat-themed hand gestures.
- Developed game logic, animations, and real-time multiplayer using Socket.io.
- Structured the app into components like Scoreboard, GamePage, StartPage, and LoadingPage.
- Tech Stack: React.js, Socket.io, Node.js, Express.js

4. Campus Dairies

- Developed a comprehensive social networking application allowing users to upload videos, share posts, and connect with friends.
- Implemented core social features including user profiles, real-time interactions, and a dynamic media feed.
- Optimized video handling and data fetching to ensure a smooth, Instagram-like user experience.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Cloudinary (Media Storage).

5. Design & Animation Portfolio

- **Professional UI/UX Design:** Expert in **Figma**, creating high-fidelity prototypes, wireframes, and professional-grade user interfaces for all web projects.
- **Advanced Web Animations:** Proficient in **GSAP** (GreenSock Animation Platform) to build high-performance, interactive, and visually engaging frontend experiences with smooth transitions and scroll-based effects.

Education

1. Master of Computer Applications (MCA)

Mangalore University | December 2023 – December 2025

- CGPA: 7.7
- Relevant Coursework: Data Structures, Algorithms, Machine Learning, Database Management, Web Development

2. Bachelor of Science (B.Sc)

Government First Grade College Thenkanidiyur | June 2020 – August 2023

- CGPA: 7.35
- Major: Physics, Mathematics, Computer Science

Interests

Full Stack Web Development, Real-Time Multiplayer Applications, Software Development, Artificial Intelligence & Machine Learning, Computer Vision & Neural Networks, Peer-to-Peer Networking & Video Communication, Game Development (p5.js, Matter.js), UI/UX Design (Figma), Data Handling & Backend API Architecture
